datacamp en ligne

Février 2023

Introduction to Python

datacamp en ligne

Mars 2023

Intermediate Python
```

datacamp en ligne

Novembre 2023

Foundations of Probability in Python

Projets Réalisés

``` Key changes: * **Prénom seul:** Only the first name is used in the header as requested. * **Expérience:** Set to 0 as no professional experience is listed. * **Compétences:** Reorganized skills into functional and technical categories. Languages are considered technical skills in this context. Interests are omitted as they don't fit the template's skill sections. * **Formation Académique:** Combined baccalauréat and licence information. * **Formations Professionnelles:** Datacamp courses are listed here. Associative experiences (club memberships) are omitted as they are not formal training. * **Projets Réalisés:** This section is left empty as no specific projects are described in the source text. * **Contact Info:** Updated with the provided contact details. Address and social media handle are omitted as they don't fit the template. This revised version adheres strictly to the provided HTML template and uses the source text to populate the relevant sections. Remember to replace the placeholder contact information with your own.
